

Lindsay Peters – Communications Manager

Lindsay Peters carries the responsibility to review existing training programs and to assist each location in updating, enhancing and improving the training process. In addition, she is responsible for editing newsletters and training materials for distribution to VenuWorks location staff members.

She has experience of having been on the front line of recruiting, scheduling, and training experience as an event coordinator and event manager, having worked for VenuWorks' facilities in Grand Forks and Cedar Rapids before returning to graduate school.

Her experience supervising part time event staff serves VenuWorks well as we develop new programs to bring continuity and consistency to the training of part time crew members throughout all of our VenuWorks locations.
